

NO SHOW/ LATE CANCELLATION POLICY

Your physician has prescribed a treatment schedule for your healing and it is important that you arrive on time for each visit so we can provide you the best care possible. From time to time, emergencies or sickness happens. However, when a patient consistently misses appointments or calls at the last minute to cancel it becomes necessary for us to intervene. We value following your physicians plan of care and missed appointments take away from our ability to do so. If a patient has more than 2 NO SHOWS or LATE CANCELLATIONS, we will place them on a “Day of Appointment Call In” rather than scheduling out future appointments. This will help you to know for sure that you are able to arrive on time for your appointment, and to help us manage our schedule to serve all of our patients.

Thank you for your understanding.
